

VENDOR PORTAL | NAV-TO-NET

Elegant e-Commerce Experiences
Exclusively for Microsoft Dynamics™ NAV

Businesses place a lot of value in vendor and supplier relationships to further their growth. In the e-Commerce space, there is potential to reach more customers and provide an even higher level of customer service and satisfaction. Seamlessly integrated with Microsoft Dynamics NAV, Vendor Portal works together with any part of the Nav-to-Net™ e-Commerce suite on every level. If vendors and suppliers are an important part of the business model, include them in the e-Commerce strategy.

SIMPLE AND STREAMLINED

Businesses may require additional support for the operation system, key team members, and organization. Choosing the wrong solution can cause a business to be slow, clunky, and needlessly complicated. A streamlined process with seamless integration to Microsoft Dynamics NAV will help you achieve simple maintenance, precise control, and overall convenient management of content.

The screenshot displays the NAV-TO-NET Vendor Portal interface. At the top, there is a navigation bar with links for ABOUT US, FAQ, SITE SURVEY, STORE LOCATOR, and CONTACT US. The main header includes the NAV-TO-NET logo and the tagline "The most comprehensive e-commerce suite for NAV". Below this, there are navigation tabs for Mountain climbing, Accessories, Vertical Climbing, Spelunking, Fashion, Product Finder, Configurator, and Category Links. The main content area is titled "Product" and features a "New" button. A search bar is present with fields for "Search Product", "Language" (set to English), and "Currency" (set to USD), along with a "GO" button. The form includes fields for "Nav Item ID", "Vendor Item ID*", "Manufacturer", and "Model". There are also dropdown menus for "Language" (English) and "Price" (USD). A "Long Description*" field and a "Comment*" field are provided. At the bottom, there are three "Image*" fields: "Image*", "Thumbnail Image*", and "Enlarged Image*", each with a "Choose File" button and a "No file chosen" status. A "Submit" button is located at the bottom right of the form.

Update item content via the Vendor Portal

SECURE LOG-INS

Vendors can access their account to manage various components such as publish product content, descriptions, and images as well as create Request For Quotes and view open Purchase Orders.

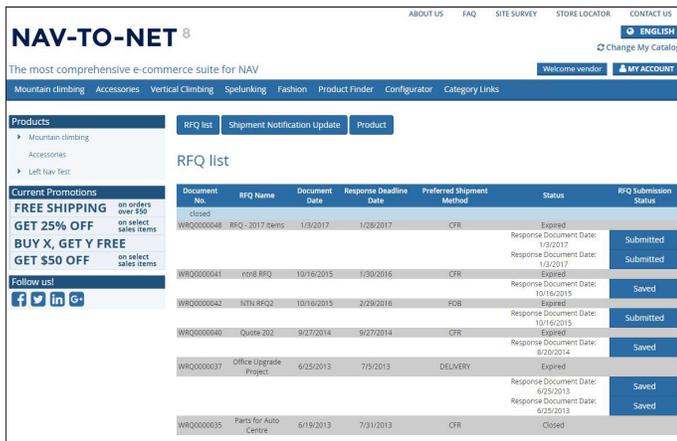

SPECIFIC PERMISSIONS MANAGED IN NAV

It is important for certain roles within the organization to have access to various administrative areas, catalogs, data, and more. Specific permissions managed in Nav-to-Net™ can control what vendors can and cannot see. Add these to any role to increase security and protect your privacy. The back-end, technical elements of the business run as they should without any disruption.

SHIPPING NOTIFICATIONS

Shipping notifications encourage transparency and reliability from the vendors. Customers want to know what's happening with their order. Vendors are able to give them updated notifications so customers know what to expect, bringing them greater satisfaction overall, every step of the way.

The screenshot shows the NAV-TO-NET vendor portal interface. At the top, there are navigation links for ABOUT US, FAQ, SITE SURVEY, STORE LOCATOR, and CONTACT US. Below this is the NAV-TO-NET logo and a language selector set to ENGLISH. The main navigation bar includes categories like Mountain climbing, Accessories, Vertical Climbing, Spelunking, Fashion, Product Finder, Configurator, and Category Links. The left sidebar contains sections for Products, Current Promotions (including FREE SHIPPING, GET 25% OFF, BUY X, GET Y FREE, and GET \$50 OFF), and Follow Us (Facebook, Twitter, LinkedIn, Google+). The main content area is titled 'RFQ list' and contains a table with the following data:

Document No.	RFQ Name	Document Date	Response Deadline Date	Preferred Shipment Method	Status	RFQ Submission Status
WRQ0000048	RFQ - 2017 items	1/9/2017	1/28/2017	CFR	Expired	Submitted
WRQ0000041	rfq RFQ	10/16/2015	1/30/2016	CFR	Expired	Submitted
WRQ0000042	INTN RFQ2	10/16/2015	2/29/2016	FOB	Expired	Saved
WRQ0000040	Quote 202	9/27/2014	9/27/2014	CFR	Expired	Submitted
WRQ0000037	Office Upgrade Project	6/25/2013	7/5/2013	DELIVERY	Expired	Saved
WRQ0000035	Parto for Auto Centre	6/19/2013	7/31/2013	CFR	Closed	Saved

Request for Quotes List in Vendor Portal

REQUEST FOR QUOTES IN VENDOR PORTAL

Vendors and suppliers are invited into a bidding process to bid on specific products and services to establish the best price. This essential feature helps customers to negotiate, understand pricing structures. This can apply to standard items, built-to-order items, items required in smaller or larger than usual quantities. Vendors can respond to requests with their firm quotations in an attempt to secure business. They can see from the RFQ list what is required, the status, response deadline date, and preferred shipment method.

REAL-TIME UPDATES IN NAV

Seamless integration with NAV means there is no drag on the system and everything happens virtually instantaneously. Vendors can update information as it happens, such as Expected Receipt Date, Vendor Item Number, and Total Quantity Shipped. A lot of factors are involved in the fulfillment of orders; vendors are required to inform customers when things change by updating orders, shipment and invoice numbers. The changes can be made quickly and will be automatically updated in the Purchase Order in NAV.

The vendor and supplier network should not be treated as an afterthought. Integrate them into the overall e-Commerce strategy with Nav-to-Net™ Vendor Portals so they may contribute to higher sales and customer satisfaction.

Digital Vantage Point Inc. is the global leader in delivering cost-effective, integrated e-Commerce products and services to Microsoft Dynamics™ NAV customers and partners for more than a decade.
